

Guide Rail System Type	Guide rail system MM GRS 513
Height of pit ladder	3,200 mm
Pit ladder type	Movable
Pit ladder type and HSPL and E	MOV STD 3200_ES5_63
Counterweight zone	CWT SIDE
Counterweight location	On the left side
Counterweight position	left wall;center
Dist.right wall guide rail SF2	108 mm
Type of cables	Halogen Free
Width of pit ladder	343
Depth pit ladder incl. support	63.0 mm
Dist. pit fl. to stored ladder	150 mm
Pit ladder angle when deployed	75.00 deg
Position of pit ladder	Front right
Refuge space posture in pit	1 x Refuge Space Laying
Depth of hoistway pit (HSG)	1,295 mm
Option: drilling in pit floor	Yes
Build. toler. per hoistw. wall	0 mm / +35 mm
Seismic application	No
Opt: craneable packing	No
Pit entrance side	On the front wall
Dist. hoistway to LD sill 1	75 mm
Dist. car door - land.door TKS	30 mm
Depth of pit ladder	63.0 mm
Opt:cracked concrete	No
